It's really easy and intuitive to use. Just tap the task and you're done. Note: This is not a replacement for a proper Time Management program. How to use: Open Time Clock, and tap the add button. Select your task. Set start and end time. Finish. The PeopleSoft Mobile Device and Tablet Scheduling solution, which was released earlier this year, now includes Android and iOS versions for those devices. The solution's capability for delivering applications and data to multiple user devices, including smartphones, tablets and PCs, is enhanced with an ability to schedule events and access itineraries on those devices. In addition, it can include a program to schedule a meeting. The solution's ability to locate users quickly to minimize delays for meetings, and its ability to notify and meet with those users on site is also added. Users can also sign in to an electronic signature solution, AcroShare, to scan documents for users and attach them as attachments to an email. The PeopleSoft Mobile Device and Tablet Scheduling solution comes with a variety of functionality for doing different tasks. It includes an application that can configure devices. This includes an iPad or Android tablet, a user's smartphone, a computer, a secure token and a smart card. The user can define the order in which the devices are configured and their functions. An
